

## ***Battersea Babes!!***

We are looking for the right forever loving homes.

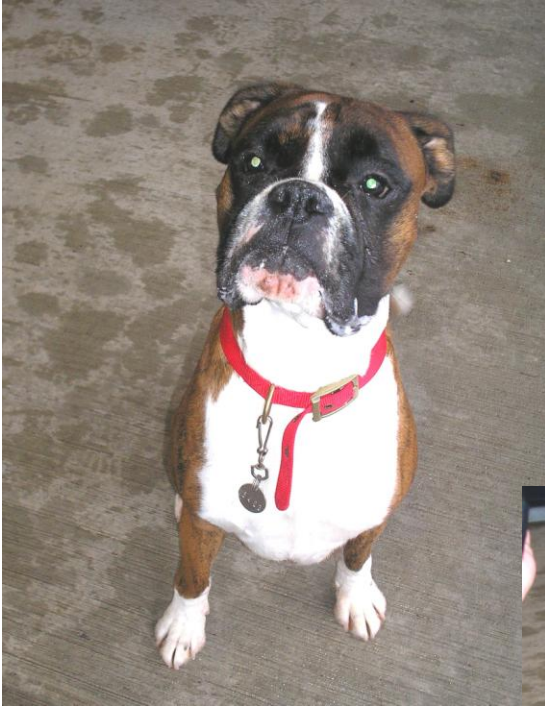

Hi, my name is ***Master Duke*** and I am approx 3-4 years old. I was found wandering the streets and taken to Battersea...someone loved me, but no one has come forward to claim me?

How sad is that!!

I am a lively boy and can be a bit dominant, but I am not castrated yet!...hopefully I soon will be and this will calm me down a bit ;0) I do not get on with other dogs, and I do not know why, so ***Auntie Dawn*** thinks a home without other dogs or small children would be ideal for me, experienced Boxer people would be such a benefit. I love all you humans and I have bounds of energy, I'd love to go for long walks with you and snuggle up with you on our return.....I really do want a home of my own, the staff at Battersea are looking after me fantastically but there is nothing like belonging to a family of my own!!

.....

Hi...my name is *Cheeky Alfie*...I do look cheeky don't I ;0) I was found wandering the streets of London and taken to Battersea, where I am now. I am a good boy but a lively boy...I as in most Boccie Babes have lots of energy and need exercise to burn this off.....I am approx 2-3 years old, and I have just got over

kennel cough and very soon I will be castrated. I do not get on with male dogs, but am fine around the females.....I love to play play play, and have lots of cuddles. I do have a long tail that suits me just fine!!

*Auntie Dawn* thinks I need previous Boxer owners as you seem to understand what we Boxer boys are about, but she doesn't think I should go with young children in the home; teenagers would be great as they can play footie with me....I do like my toys!!

Hello...my name is **Miss Paws....**Umm! rather a strange name but there you are ;0) I am approx 5-6 years old. I am so tiny, this picture doesn't really show you how small I really am, but the next one will....I was taken to Battersea as my previous owner could no longer look after me. I do suffer a little with separation anxiety and hate to be left longer than an hour; I need a special home that will accommodate this, I don't destroy things but I will bark and howl if I am left longer. I am a good girl, very loving and very affectionate, I need to be the only pet in your family as I do not get on with other dogs, I can walk past them without any trouble as I ignore them,

but I cannot share my life with another animal. I love all you humans and I do long to be with you in your home, I so want a new forever home of my own, the staff do look after me and I do get taken out for walks with Auntie Tracy on her lunch breaks, but I hate being shut in the kennels, it's so depressing and sad.

I do bark when people come into your home, but nothing more, and I do bark if you go to take my food away from me, but again, nothing more, and why would you want to take my food away from me anyway?! I am not yet spayed but I soon will be!!

If you can offer any of these delightful Boxer babes the loving forever home they so deserve, then please get in touch with **Auntie Dawn** on **01406 490350 Duke, Alfie Paws** and myself will be waiting for that call. The same conditions of adoption apply!

Boxerly Love xxxxxxxxxxxx
