

Hello everyone My name is **Miss Ella** and I am **4 years**.

I need a new forever loving home that can cope with my boisterousness, an energetic home that has time for me. I am so young and have so much to do in my life; I just need someone to do it with 😊 I love long walks and playing with any type of ball

I used to live with another dog for a short time but I got jealous of him (some of us females need that one to one attention) so that home didn't last for long. As far as my **Auntie Dawn** is aware I have had two homes before, my original home and the one I came from, she doesn't know why I had to come out of my original home but guessed it was because I am too excitable. But I am so very loving as well.

I do jump up and go giddy when people come to 'our' home, and some people just don't get it, all you have to do is pay me a little attention and then ignore me and I will settle down....It's because I am craving the attention and really do believe that anyone coming to 'our home' has come to see me!! I just adore all the attention you can give me; there is nothing quite like lazing on the sofa cuddled up to

someone that loves you ... pure bliss!!

If **Uncle Adrian** at the kennels sits down I just want

to sit on his lap, surly that's what laps are for!!

The lady that brought me to the kennels had a baby and just couldn't cope with me and the baby, I didn't do anything wrong but I wasn't getting the same attention as before she had the baby, and it up-set us both. I also loved that little baby and was so good with it, I am good with most children but you need to make sure your children are fairly calm around me otherwise I just get so excited and want to carry on play play playing!! Auntie Dawn was told that I was good on the lead, but in truth I pull like crazy to begin with but will settled down eventually and walk reasonably well on my lead, I just need a little more training and with

time and patience I will walk lovely beside you. I have never had off lead exercise when out as I just run and may not come back to you, again training and time and patience will pay off in the end. (I get to run around at the kennels off lead and I love it) Auntie Dawn thinks I have a lot of 'pent up energy' to burn off and she says it's a real pleasure watching me having such a good time 😊

I can be left on my own for a few hours, and I am not destructive, and I always slept downstairs on my bed with the use of a stair gate at the bottom of the stairs, but given the chance I'd be right up those stairs right next to you 😊

I am spayed, and fully vaccinated, now all I need is that right forever loving home to share my life with...If you feel you can give me this home please ring my Auntie Dawn on **01406 490350**, we both will be waiting for 'that' call. **Miss ELLA XXXX**
