

Hello Everyone....

I am in need of a very special home, so I will tell you all about myself.....

My Name is Lily

I am 2 years old and my date of birth is....27-11-2007. I have a medical problem in that I was born with '**Hydrocephalus**' (water on the brain) which has left me slightly with brain damaged..... *(her owners took her to their vets as soon as they got her and it was the vets that diagnosed this, as you will see on her next picture, she was born with bulging eyes and bow legs....she is also very tiny for a Boxer)*

(Thankfully her legs are now straitened out and her eyes have taken on the right shape.....bless her!!)

I live with two other dogs both being De-BORDEAUX dogs, one male and one female.....I have started fighting with the male dog and although I love being with

them, this is getting to be a problem with my family, as sometimes the children can get in the way and they get frightened.

I love living with my playmate dogs as I seem to need another dog around me. My two legged family love me too bits and only have to part with me because of my little difficulties.

I do suffer with separation anxiety as well, I hate being left on my own, I will ***wee & poo*** the instant you walk out of the door, I really do get stressed when you leave me...but when you are with me I am the **perfect little angel** you could ever wish for, I love my cuddles, I love playing and I love going out for walks, I just love being with you 24 x 7.

I live with 4 children aged **4-6-10 & 12**, so I am really excellent around all children of all ages (I prefer to be in their gang ;0) as they are always having so much fun!!) My owners have now built us dogs a kennel and outside run for us 3 babes to be in, but I do get jealous if the children are out in the garden playing and tend to have a go at my two doggy siblings....only because I want to go and play with the children...so it all gets a bit out of hand and everyone gets stressed out.....

My Mummy is convinced if I was to go to a new forever home that you had time for me

and would give me the things I so need (time and attention) I would be a much happier girl and the other two dogs could get on with their lives much better without me.

I would need a very energetic new family as I am so active myself, what I lack in size I certainly make up for in having bags of energy. I am not yet spayed but my **Auntie Dawn** say's you will have to have this done ASAP, my last season

was in November 2009 and it was my second season, ideally my spaying needs to be done pretty soon.....I am sure this will not only calm me down a little, but help me in my development.

On this picture you can see how tiny I really am xx

I have my paws crossed that you are that special home to love and care for me, if you think you are then please give my **Auntie Dawn** a ring on **01406 490350**, she and I will welcome your call.

Big Boxerly Love.....**Miss Lily**
