

Hello Everyone

My name is Master Tyson and I am 8 ½ years old

I am in need of a new forever loving home :0(

I used to live in Portugal with my Mum & Dad but we had to come home to England as my Dad was so ill.....sadly he passed away just weeks after coming home....we was all so up-set... My Mum then had to go out to work full time and I was left at home, and I hated it.....I started being ever so naughty and doing naughty things like taking down the curtains and emptying the bins, you know what I mean, you are Boxer people so understand all this.....I hated being left on my own, I wanted my Mum at home with me, just like the old days.....when we lived in Portugal I had acres to run around in and was always ready for bed time, now Mum can't take me out as she is poorly and can't hold me on the lead...I do pull like crazy, but only because I am so excited to be out, I love the outdoors. I know I am naughty in doing all these silly things indoors, but it's only because I can't get out and get all my energy out of me. I lived

with a cat and although I'd chase the cat I never harmed it...but I do not want to live with another dog, I'm too selfish because I want all the attention....I so want you to love me, I'll give you ten-fold back!!

I am VERY bouncy around children, and have never lived with them, but I know I get very excited around them, so maybe a family with older children would suit me better. I'm not too keen on other dogs if we go out, so Mum doesn't let me off my lead as I don't think I'll come back when called.

When anyone comes to our door, I do bark and then get really excited if they come in, not naughty excited, but just excited so Mum puts me in the kitchen behind a dog gate until I've calmed down.

I travel very well in a car, and will ride in the back all day if you wanted me to. I do pull on my lead and will pull towards anyone that we approach, but only because I am curious!!

I am castrated, but that was only done about 3 months ago as Mum thought that would help me with my separation anxiety...but it didn't!! My vaccinations will be up to date, and I am micro chipped.

I have been fed on tinned meat and mixer biscuits once a day (my Auntie Dawn says it would be better if I had this big meal split into two meal so I had something to eat morning and night!!

If you think you could give me that forever loving home that I so need, please phone

Auntie Dawn on **01406 490350** we will both be waiting for that call...

Sorry that the picture quality is not good, only my Mum sent them to Auntie Dawn via her mobile phone.

Paws crossed.... ***Tyson***
